I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

To RELIEVE HEART TROUBLE.—Mrs. E. L. Mayberry writes to the Los Angeles Times as follows: I suppose one would be laughed to scorn should they suggest to the learned physicians engaged in torturing the last days of brave Gen. Sheridan, that a common rubber bag filled with hot water, placed over the region of the heart at night, is more effective in cases of heart failure of any kind than all the torturing methods usually resorted to combined. I have suffered from heart trouble for the last ten years or longer, and have never failed in restoring it to its normal condition very quickly by this method, even when my limbs were cold and purple. Although I cannot benefit brave "Little Phil" by this information, it may aid some other unfortunate who is being punctured, morphined and blistered into the grave or worse, if you will make it known.

TO LATE IN THE DAY.—Colonel Wm. Sutherland, says the Enterprise, on Friday received telegram from Congressman Woodburn notifying him that the West Point vacancy occasioned by the disqualification of Joseph B. Kinney, would be filled by the appointment of his son Harry, if the latter could pass a satisfactory examination on August 29. In view of the fact that the young man has not attended school for the past nine months, and has been sick three months during that period, his father thinks, owing to the limited time allowed for study, that it would be like pitting the boy against a forlorn hope, and has consequently declined the professed honor with thanks.

A STRANGE FIND.—The Enterprise says a day or two since the miners in the Chico found in an old drift on the 450 level a coat much decayed, in the pocket of which was a silver watch. The cases of the watch were in a good state of preservation but the works were a mass of rust. How long the watch has been in the mine and to whom it belonged is a mystery which is puzzling the Chollar boys not a little.

THE OPENING NIGHT.—The Wieland

reception was largely attended, and all

pronounced John Wieland new beer

headquarters the finest east of San Francisco. J. B. Francis, the proprietor of

this new elegant saloon and bottling

works, though in ill health was on hand

and received all with his usual cordiality.

Fire at Truckee.—At an early hour yesterday morning a fire broke out in Truckee, and quite a number of buildings were destroyed before the flames were got under control. The Republican office is the greatest loser, only a small portion of the material being saved. A blacksmith shop and brewery adjoining the Republican building and four or five smaller buildings were also destroyed.

BOUND OVER.—Willie Dunne, the Piute slayer of Charlie Winnemucca at Pyramid Lake Reservation, had a preliminary examination in Carson Thursday on a charge of murder before State Commissioner T. J. Edwards. Dunne was held to answer before the United States Grand Jury, which convenes in Carson next month.

CONGREGATIONAL CHURCH.—Services to-day conducted by the pastor, Rev. T. Magill. Subject at 11 a. m., "Perils Which Menace Our Country." At 7:30 p. m., "Rest for the Weary." Sunday School at 12 m. Prayer meeting Wednesday evening at 7:30 p. m. The public is cordially invited.

TWILIGHT MINSTRELS.—All members of the Twilight Minstrels are requested to be present at a meeting to be held in McKissick's Opera House Sunday afternoon at 2 o'clock.

H. DAVIS, Manager.

VIC LAMOTTE, Sec'y.

A NUT FOR THE DEMOCRATS.

The Carson Appeal gives the Democrats the following hard one:

The Democrats of Nevada have their throats full of but one charge against Harrison, and that is, that he is a friend of the Chinese. They add vociferously that his Congressional record shows it.

They have for some time past pointed proudly to the fact that Senator Fair introduced a strong anti-Chinese bill in the Senate.

Senator Harrison voted Senator Fair in drawing up that bill, and voted for it.

ROYAL BAKING POWDER.

The Society for the Prevention of Cruelty to Animals is troubled, and not without good cause. The flat has gone forth that it will be fashionable this summer for "my lady's" pet poodle, to match in color with "my lady's" pet costume. Now this is hard on the poodle and it cannot be claimed that that canine's life has ever been an unruffled one, despite his diet of sugar-plums and cream. But this last decree is the worst of all; it means that if "my lady" wears a toilet of blue, "Fido's" only tail must be colored an azure tint, and the tips of his pretty ears made likewise to correspond. Next day, in all probability, pink is the color chosen, and poor "Fido," after a vigorous scrubbing, lathered with a certain kind of chemical soap, is reproduced, decorated a delicate conch shell hue.—Kate Catherwood, in Jane Table Talk.

In another interview Chairman Mills

says his Tariff bill will be passed by

August 1st. In answer to the inquiry:

"Do you expect to have any difficulty in passing the Tariff bill?" he finally said, "None whatever."

The Chairman of the Democratic National Committee has announced the names of the members to constitute the National Executive Committee. Every State, except Nevada, has one representative.

A monster Harrison and Morton ratification meeting was held in the Metropolitan Opera House, New York city,

Friday evening. Thousands were turned away, unable to gain admission.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing cold to go without attention is dangerous and may lose your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boche's German Syrup. It will give you immediate relief.

PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their fidelity to the principles of the Republican Party, which have made the country so great and prosperous during the last quarter of a century.

Resolved, That the question of an sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National bank, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to be invested in bonds and loans to the several banks without interest, is subversive of the rights of the people of every nation, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National Bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring of trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them willy-nilly to pay the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

Resolved, That we favor the nomination of no man for President who is personally interested in National banks or in the financial address of the people of the United States, but we demand a candidate who is free to justice to all the people of this country, the poor as well as the rich.

Resolved, That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the bond purchasing bill, equals the villainy of the secret and fraudulent demonetization of silver in 1873.

II

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wageworkers competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he either as agent or head, is most active in defending.

III

Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform by stripping the mail service of its right to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defense, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver, and destroy the industrial output of the country, and the destruction of wages of the Mine employees at Carson for closing the Carson Mint when it was not only self sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

IV

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wageworkers competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he either as agent or head, is most active in defending.

V

Resolved, That we are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

VI

Resolved, That we recognize the right of labor to organize for its lawful protection.

VII

Resolved, That we favor the substitution by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

VIII

We favor liberal appropriations by Congress for hydrographic and topographical surveys in the State, to the end that the waste waters may be preserved for the purpose of irrigation.

IX

We endorse the wise and conservative administration of Governor U. C. STEVENSON, and we heartily commend the able efforts of Weston Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.

X

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

XI

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the creation of public buildings, the creation of a navy, the purchase of bonds, and the repeal of the internal revenue laws taxing tobacco.
